

166th International Training Programme on Audit of Digital Public Infrastructure 12th to 28th November 2025

Course on Audit of Digital Public Infrastructure (ASOSAI Members)

Governance is rapidly evolving through Digital Public Infrastructure and technologies like AI and ML, improving service delivery but also introducing challenges like cybersecurity and ethical concerns. In this context, public auditors must strengthen their role by upgrading skills and adopting emerging technologies to ensure effective, accountable, and future-ready audits.

The course covers the following:

- Digital Public Infrastructure (DPI) in India: DPI components, implementation, monitoring challenges, and associated technology elements.
- Audit Aspects: Principles of auditing DPI projects, cybersecurity, data integrity, and privacy issues.
- Technology in Auditing: Use of data analytics, AI/ML and Robotic Process Automation in public sector audits.
- Practical Learning & Capacity Building: Case studies of DPI audits and online certification courses in IS Audit and Data Analytics.
